Fast reaction, good memory, attention to trifles. Sergey Belan estimated how important it is to train various functions of the brain, after it suffered from its own inattention. Now he earns that she trains others.

About the business of the 31-year-old Sergey Belan it is possible to say: there would be no happiness, but misfortune helped. Thought about creating a simulator for brain fitness entrepreneur pushed a tragic accident. Four years ago, Bellan went with friends for the city on kebabs. There was an excellent weather, Sergey, having fun with buddies, poured a liquid into the grill to ignite coal. At some point he was forgotten and approached the fire too close - the bottle exploded right in his hands.
